

Long Lasting Creastar® Lipstick

Long-Lasting Lipstick has high shine and unique colour together with moisturizing lip care benefits. Based on Creastar® pearlescent pigments, which provide distinctive colours for all decorative cosmetic applications. Creabase® NTL 80 creates an excellent base for lipsticks as it has excellent skin adherence. Meadowfoam Seed Oil® is added for its softening skin care benefits and Alphaflow® 50 enhances application qualities and shine. Dedraflow® 5 brings emolliency and lubricity to the formulation. Creasil® 7 ID is ideal for longlasting cosmetic application as it improves the skin adherence and endurance of the product.

Ingredients	INCI Name	Qty%	Supplier
Phase A			
Creabase® NTL 80	Hydrogenated Polydecene (and) Polyethylene (and) Isohexadecane Paraffin	42,00 2,50	1)
Meadowfoam Seed Oil®	Limnanthes Alba (Meadowfoam) Seed Oil BHT	9,60 0,05	1)
Phase B			
Creastar® WL 100	Lauroyl Lysine Calcium Aluminium Borosilicate (and) Titanium Dioxide (and) CI *	3,00 11,60	1)
Phase C			
Alphaflow® 50	Hydrogenated Polydecene	8,00	1)
Dedraflow® 5	Hydrogenated Polyisobutene	13,25	1)
Creasil® 7 ID	Isododecane (and) Dimethicone (and) Polyethacrylate	10,00	1)

*all Creastar® pearlescent pigments can be used in lipstick applications to create unique shine and colour.

Procedure:

1. Heat up phase A to temperature of 70° C - 75° C and stir until homogenous.
2. Let phase A cool down to temperature below 60° C and add phase B, keep stirring until homogenous.
3. Add phase C into the mixture (A+B) and stir until homogenous.
4. Pour into heated moulds and leave to cool down.

NOTE: Please note that sufficient preservative system needs to be used, we do not guarantee microbiological stability.
