

Creasil® ID Bi-Phase Remover

Bi-phase Make Up Remover combines functionality and visuality. Coloured phases create a unique product with excellent cleansing properties. Based on Creasil® ID CG, which cleanses oil and impurities from the skin surface as well as removes make up without any irritation. Creasil® ID leaves clean and dry skin feel. Dedraflow® 5 is used as volatile, hypoallergenic emollient to improve the sensorial perceptions of the products. Silky Dedraflow® 5 brings smooth feel upon application but leaves no residue. Dedraflow® 5 can be used as a replacement to Cyclomethicone with similar volatility profile and silicone like feel.

Before applying Lotion Bi-Phase, shake well to mix the two phases. Apply with a cotton pad on the skin.

Ingredients	INCI Name	Qty%	Supplier
Phase A			
	Water	q.s.	
	Butylene Glycol	5,00	
	Disodium EDTA	0,05	
	Chlorphenesin	0,20	
	Hexamidine Diisethionate	0,05	
	Sodium Chloride	1,00	
F&DC Blue N° 1 (0,15%) in H₂O	Water (and) CI 42090	0,10	
Phase B			
Dedraflow® 5	Hydrogenated Polyisobutene	25,00	1)
Creasil® ID CG	Isododecane	20,00	1)
	Parfum	0,15	
DC Yellow N° 1(0,06%)in Alphaflow®30	Hydrogenated Polydecene (and) CI 47000	0,20	1)

Procedure:

1. Mix ingredients together in phase A until homogenous.
2. Mix ingredients together in phase B until homogenous.
3. Add phase B into phase A and keep stirring until homogenous.
4. Adjust pH value to 4,20 – 4,30.
