

## Volumizing Lip Treatment

Easy cold process lip treatment with Fiflow® as active ingredient. Fiflow® is gas carrier with wrinkle reducing effects. Fiflow® plumps up the skin surface and creates smoother, fuller appearance on lips. Creagel® Crystal HPB together with Creagel® Crystal AF forms a long lasting, water resistant, high shine film on the lips. Creagel® Crystal products are ideal for lip gloss applications as their pseudoplastic behaviour keeps the lip gloss on the lips and stops bleeding around the lip area. Creagel® Crystal allows high pigment loading as it forms a structure which holds the pigments preventing the sedimentation of the particles. Creasil® 7ID dries off creating a water resistant film which improves the long lasting qualities. Creasil® TDTM adds high shine benefits upon application.

Ingredients	INCI Name	Qty%	Supplier
<b>Phase A</b>			
<b>Creagel® Crystal HPB</b>	Hydrogenated Polyisobutene (and) Ethylene/Propylene/Styrene Copolymer (and) Butylene/Ethylene/Styrene Copolymer	33,25	1)
<b>Creasil® TDTM</b>	Tridecyl Trimellitate	33,25	1)
<b>Creagel® Crystal AF</b>	Hydrogenated Polydecene (and) Ethylene/Propylene Copolymer	26,60	1)
<b>Creasil® 7 ID</b>	Isododecane (and) Dimethicone (and) Polyethacrylate	1,90	1)
<b>Phase B</b>			
<b>Fiflow® 135</b>	Perfluorodecalin (and) Perfluoro Dimethylethylpentane (and) Perfluorohexane (and) Perfluoroperhydrophenanthrene (and) Perfluorodimethylcyclohexane	5,00	1)

### Procedure:

1. Mix all ingredients in phase A together. No heating necessary.
2. Add phase B into phase A and high shear mix it carefully for 1-2 minutes.
