

Pelavie® Black Silt

Chemical Composition:

Component	Legislation
Silt	EINECS No. 310-127-6
Phenoxyethanol *	CAS No. 122-99-6 EINECS No. 204-589-7 JACT-9(2)1990, JCLS, JSCI, JSQI

* Preservative system can be chosen by customer's choice.

INCI Name: Silt (and) Phenoxyethanol

Technical Information:

Appearance	Black paste
Odour	Characteristic
pH (at 25°C)	5,0 – 7,0
Loss on drying (1h at 105°C)	91 – 95 %
Solubility	Partially soluble in water and slightly soluble in alcohol and esters
Shelf life	Minimum 3 years

Description: Pelavie® Black Silt is a finely structured colloid that spreads easily and leaves a fresh after-feel. Its organic and mineral components provide nourishment and treatment to the skin. Regular use helps promote cell oxygenation which imparts freshness, firmness and uniformity to the skin. Pelavie® Black Silt is particularly suggested for facial masks and body wraps as well as for the bath and it is also recommended for use in hair treatment. It will rinse out easily, detangle, add body to the hair and condition the scalp.
Typical Use Level : 5 – 100%

Before using this material see the MSDS.
